Education

Vishwakarma Institute of Technology, Pune, Bachelor of Engineering - Computer Science 2023-2027

- CGPA: 8.52
- **Skills:** Fullstack MERN Developer

Skills Summary

- **Languages:** Java, Cpp, C, JavaScript, TypeScript, Python
- **Frameworks:** React.js, Next.js, Node.js
- **Databases:** MongoDB, PostgreSQL

Projects

StreamFlix See More

- Developed a proof-of-concept P2P video streaming engine using Next.js and WebTorrent, demonstrating a decentralized and resilient content delivery model. The engine streams video from magnet links by fetching fragments from multiple peers simultaneously, featuring a front-end with real-time performance metrics.
- Tech Stack Used: Next.js , WebTorrent , PirateBay Scraper

Chatify See Live

- Responsive AI chatbot with React, Tailwind, and Framer Motion.
- Auth via Clerk, deployed on Vercel , DB on MongoDB Atlas.
- Stack: React, Node.js, Vite, Clerk, Google AI, MongoDB.

Noter – Terminal Text Editor (Cpp)

- Built a lightweight text editor for Linux terminal using C, supporting file I/O, cursor movement, and real-time text editing via termios and ANSI escape codes.

Freelancing Experience

SwaraAvishkar Karaoke Sponsored Project – Akola, Maharashtra See Live

- Designed and developed an admin dashboard for centralized control over admissions, user data, and event workflows.
- Implemented role-based access control and secure authentication for admins and event managers.
- Built a responsive UI with Next.js and using Shadcn.
- Enabled real-time admission tracking and user status updates with MongoDB and WebSocket integration.
- Automated event scheduling, participant registration, and report generation to reduce manual effort .

Patients

Rapid Rescue July 2025

A women's safety-focused system designed to ensure emergency response for female patients through real-time tracking, instant alerts, and secure communication. Rapid Rescue enhances security during critical situations.

Technologies

Languages: C ++ , C, Java , SQL, JavaScript

Technologies: Java, C ++ , Python, Rust, JavaScript, React, Node.js, Next.js, Flask, MongoDB, MariaDB, Tailwind, WebTorrent, Socket.IO, AWS, Vercel, Zod, Framer Motion, and basic IoT.
